

History

E-waste Recycling Authority (ERA) has been founded in 2018 by a coalition of EEE Producers and Recyclers. The PRO is a Non-profit company run on behalf of producers of electrical and electronic equipment, incorporated in terms of the Companies Act 71/2008. Operation is carried out nationally in all 9 provinces of South Africa.

Legal background

Section 28 of the National Environmental Management: Waste Act 59/2008. ERA is now being re-registered as a PRO in terms of Section 18 of the NEMWA 59/2008. Expected start of operations is 5th May 2021.

Mission

The key objective for ERA is to ensure that EEE Producers meet their EPR obligations in a simple, effective, cost-effective and measurable way – as efficiently as possible.

Our key focus is the establishment of a WEEE collection and recycling network that works to meet your compliance obligations and to meet our collective goals for our country, planet, and people.

WEEE Categories

- Large household equipment – fully covered
- Small household equipment – fully covered
