

## **History**

MoldControl is an organisation founded by producers and importers on 2 March 2018 and licensed in 2020. MoldControl is representative of 35 producers of electrical and electronic equipment and takes back WEEE from the whole territory of Moldova.

## **Legal background**

The Organization is not for profit oriented and works in conformity with Moldova law, and is accredited by the Moldovan competent authorities.

## **Mission**

MoldControl's mission is to “defend the environment and promote sustainable development by raising awareness and by training manufacturers, distributors and electrical and electronic equipment users”.

## **WEEE Categories**

All categories of WEEE are covered, but no other waste streams.

## **Start of operations**

The association was founded and started its operations in 2006.

## **Members**

MoldControl collected 17t of WEEE in 2020.

## **Contact**

President

**Iulian Gamureac**
