

History

The PV CYCLE Italia Consortium was founded in 2012 and responds to the regulatory compliance and waste management needs of producers operating in Italy.

Legal background

PV CYCLE is a Collective System pursuant to the national RAEE legislation (D. Lgs. 49/2014 e s.m.i.) and the national legislation for batteries and accumulators (D. Lgs. 188/2008 e s.m.i.).

National Registration Entity

PV CYCLE ITALIA is approved by the GSE for the end-of-life management of the Photovoltaic Modules that receive incentives from the IV and V Conto Energia.

It is also a member of the WEEE Coordination Center and of the National Battery and Accumulator Coordination Center, which are responsible for organizing and optimizing the collection, collection and management of domestic WEEE and waste batteries and accumulators on the national territory, respectively.

Moreover, it is registered in the EEE Register (n. IT14011000033) and in the Battery and Accumulator Register (n. IT16041P00035) as a collective financing system.

Mission

Our mission is to provide our members and customers with the best regulatory compliance and waste management solutions, while maintaining our service performance above the industry standards.

Financing system

Our PRO is financed by the producers that are having contracts of transfer of responsibility, through a Recycling Charges system.

Collection System and Treatment partners

Category	Cover
• Large household equipment –	(fully covered)
• Small household equipment –	(fully covered)
• IT and Telecommunication equipment –	(fully covered)
• Consumer equipment –	(fully covered)
• Lighting –	(fully covered)
• Tools –	(fully covered)
• Toys/Leisure/Sport –	(fully covered)
• Monitoring and controlling devices –	(fully covered)
• Medical equipment –	(fully covered)
• Automatic dispensers –	(fully covered)
• Photovoltaic panels	(fully covered)
