

History

PV CYCLE UK PCS has been established in 2013 and plays a pivotal role in enabling UK-based companies active in the photovoltaic value chain to execute their WEEE obligations.

PV CYCLE UK is an initiative of PV CYCLE – the first collective waste management and compliance provider for photovoltaic (PV) panels in Europe. For more information, visit www.pvcycle.org.uk

Legal background

Regulation 43 of the 2013 WEEE Regulations. PV CYCLE UK PCS has been approved since 1 January 2014.

National Registration Entity

Environmental Agency

Mission

PV CYCLE UK is a Producer scheme, providing full compliance and waste management services under the UK Waste Electrical and Electronic Equipment (WEEE) Regulations.

Financing system

Our PRO is financed by the producers that are having contracts of transfer of responsibility, through a Recycling Charges system.

Collection System and Treatment partners

Our PRO has contracts in place with authorized collectors and authorized treatment operators.
